

# Health Home Program Dashboard Report January 2017

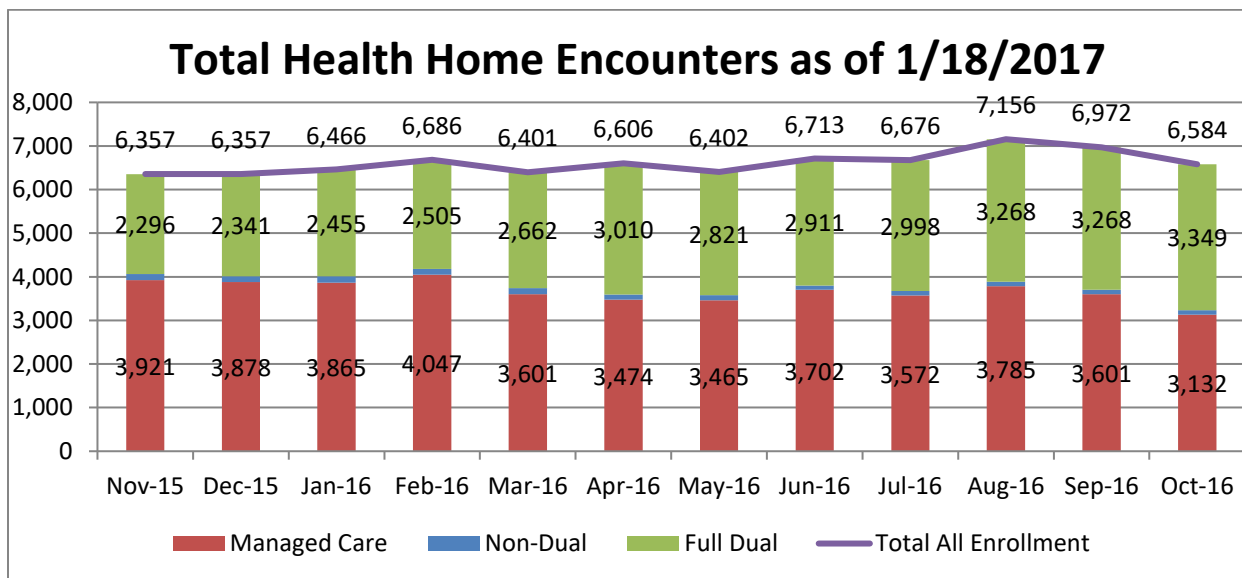

Enrollment and accepted encounter data (engagement) was pulled on January 18, 2017.

Note that there is an anticipated time lag between a service being rendered and the encounter being accepted by in the ProviderOne system. The engagement rate for the last six months will increase as encounters are submitted and accepted.

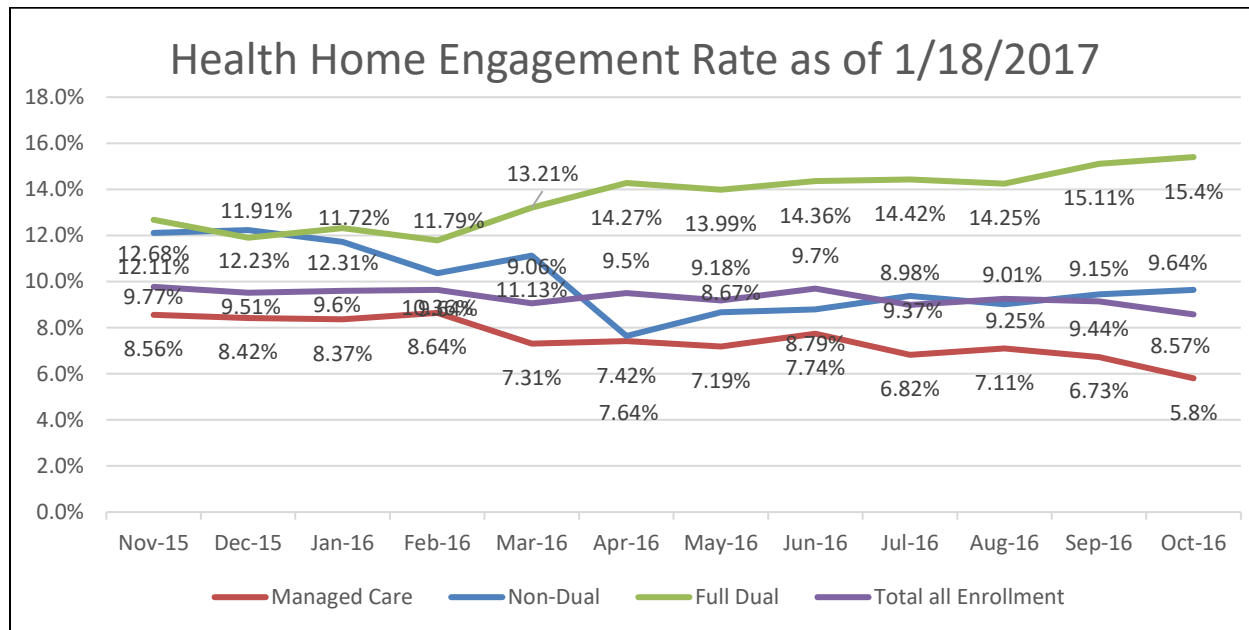

## Enrollment –

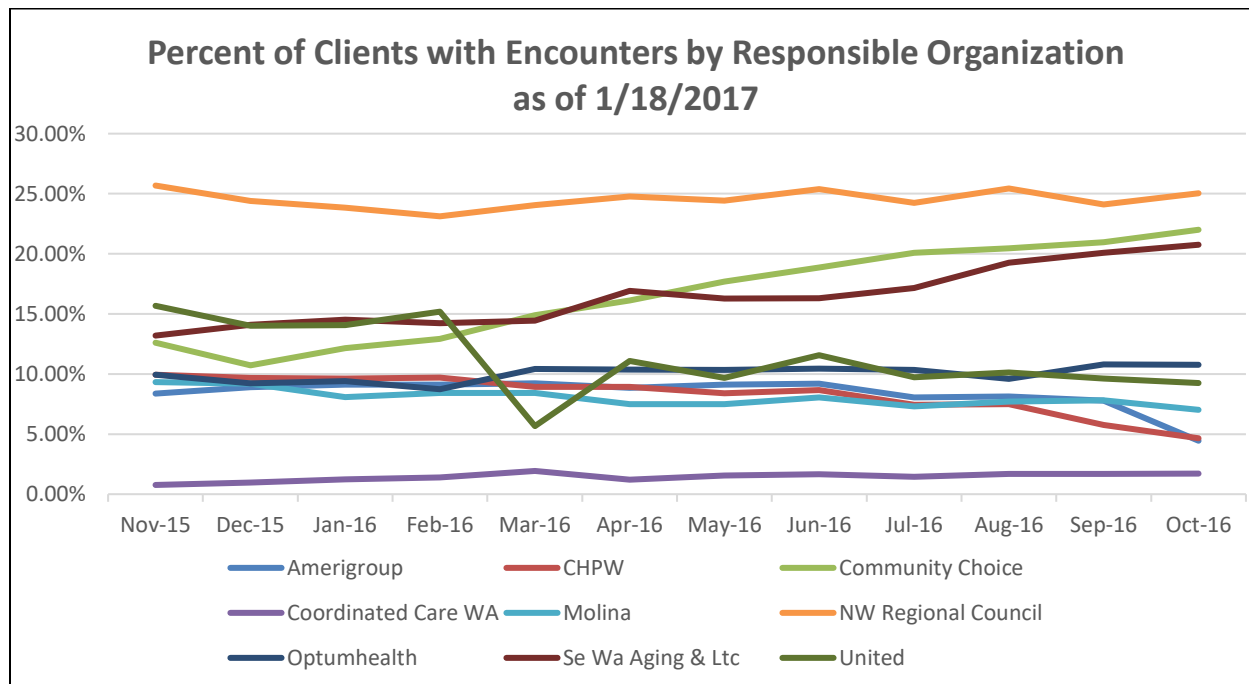

**Encounters** - Only accepted encounters are included in this report. The accepted encounters are charted by date of service.

**Engagement Rate** – The engagement rate was calculated by dividing the number of accepted encounters rendered during a month by the total number of clients enrolled in the same month.

**Engagement Rate by Organization** – Includes Managed Care, Full Dual and Non-Dual clients.
